SPILL CONTRACTORS,

CONSULTANTS AND SERVICES

ANNEX VIII

of the

Province of Ontario Contingency Plan for

Spills of Oil and Other Hazardous Materials

The names of independent contractors, which were initially obtained from spill reports retained by this Ministry, are listed and arranged alphabetically. Details of equipment and services provided in this publication were obtained through correspondence which this Ministry initiated with the contractors.

In publishing this list, the Ministry of the Environment does not endorse the contractors nor does the Ministry imply that the contractors are licensed under The Environmental Protection Act as waste haulers, or licensed under any other act. The listing merely identifies contractors who have indicated willingness to participate in the clean up of spills in specified areas of Ontario.

Contractors listed in this Annex are expected to familiarize themselves with this Ministry's requirements for waste haulage and disposal, as well as other placarding, licensing, and related requirements.

Contractors wishing to be included in future updates should contact the:

Spills Action Centre
Contingency Planning Program
Ministry of the Environment
7 Overlea Blvd.
Toronto, Ontario

June 1990

INDEPENDENT SERVICES

CONTRACTOR:

Anachemia Solvents Ltd.
3549 Mavis Road
Mississauga, Ontario
L5C 1T7

TELEPHONE NUMBERS

Business	(416) 279-5122
Dick Harrison	277-8064
Jack McGregor	277-4308
George Wentlandt	457-3643

SERVING THE AREAS OF:

Province of Ontario

EQUIPMENT / SERVICES:

The company does not directly clean-up spills. It performs separations and reclamation of volatile materials which have been accidentally mixed or spilled.

The service generally applies to volatile solvents and is carried out on a toll basis. The customer is charged on the volume yielded.

The facilities include:

Five distillation units; various means of filtering; tankage for contaminated and reclaimed material; and a burner which destroys organic residue.

Any of the above information is subject to change without notice

Aug. 1990

INDEPENDENT SERVICES

CONTRACTOR:

Barenco Inc.
10 Kodiak Crescent
Downsview, Ontario
M3J 3G5

TELEPHONE NUMBERS

EQUIPMENT / SERVICES:

- Oil Spill Emergency Response Trailer
- Licensed Part 5 Waste Transporter
- Licensed Part 5 Waste Processing Facility

Oily Wastes (used oils and oily waters) are collected throughout Southern Ontario, and re-refined at our used oil re-refinery site near Kitchener-Waterloo. Oily wastes are collected and transported using a fleet of vacuum, sump, and oil collection trucks to local transfer stations, after which the collected wastes are shipped by tractor trailer to the re-refinery.

The company also has an oil spill emergency response trailer based at the re-refinery site, which can be used to respond to land and water based oil spills. Please contact the Breslube Divisions's head office if you are interested in using this vehicle.

TYPE OF SPILL:

- Oily Wastes (Used and Oily Waters)
- Ontario Waste Classes: 221, 222, 251, 252, 253,
